

Brick Pediatric Dentistry

& Orthodontics, P.C.

132 Drum Point Road
Brick, NJ 08723
(732) 920-9220

O.R. Booking Procedure

The doctor has recommended that your child be treated in one visit under general anesthesia in the hospital. If you wish to continue with this method of treatment, please be aware that there are extra costs involved because of the additional time and hospital formalities that are involved. There are also many other expenses this office entails behind the scene that you are not aware of.

Because of this, there is an additional charge of \$500.00 to treat your child in the hospital. A non-refundable deposit of \$250.00 is required before any scheduling will be done. This fee will be applied to the actual treatment once completed. Since all the treatment is completed in one visit, payment of the estimate fee must be paid in full one week before the treatment is done unless prior arrangements are made with this office. If not paid then, the case will be canceled with forfeit of the \$250.00 deposit. A total fee will be given to you after the hospital to reflect any change in the treatment plan that the doctor finds once the child is asleep.

I have read the above and agree to comply with it.
